*(Text for question no 1 – 4)*

Anybody who is over the age of six knows that there is nowhere safe for skateboarders to skate. This prevents young people from enjoying an active, energetic and adventurous pastime.

Just watch a local street for a short while and note the steady stream of skaters speeding up and down the footpaths. Toddlers can be trampled on and old ladies can be knocked down as they struggle home carrying their cat food from supermarkets. Thunderous rattles are heard on our main roads each night as skaters travel without lights and without signs to oncoming cars. Skateboarding is a serious sport that improves young people's health. It increases fitness, improves balance and strengthens the joints in knees and ankles. Although it appears to be a solo sport, when groups practice together and complete to inform stunts or runs, they form firm friendships.

Young people should be prevented from becoming overweight couch potatoes. If they are actively involved in skating, they do not smoke, take drugs or break laws for fun.

Kids will always seek thrills and excitement, they need to practice their 180s, 360s, and Ollie's free from restriction. We must build skate parks in the suburbs so that streets are safe for small children and senior citizens, and skaters have spaces where they can race, chase, speed and soar towards the sun.

There are many reasons for keeping dogs as pets, but many people feels that dogs should not be kept in the city.

Dogs are often not taken properly. They are kept in small backyards and rarely taken for a walk. They are left in a yard all day themselves while the family is at work. Very little attention is given to the dogs and it is not good for them. It is no wonder why these dogs bark and disturb the neighbors and become a nuisance to the community.

On the other hand, not all people treat their dogs this way. There are still many who take care of them well. So, these people deserve to receive a lot of pleasure and enjoyment from their dogs.

Dogs make a lonely person's life happy and become a wonderful playmate. They can be used to teach children the sense of responsibility such as feeding, and taking care of dogs.

In conclusion, if we take care of dogs properly, the dogs will be the source of our pleasure. As a child I used to enjoy playing and taking care of my pets. There is no greater loyalty a person can get than from a well-cared-dog.
